

CARB 93120 and EPA TSCA Title VI

All Rogue Valley Doors are CARB 93120 Phase 2 compliant and EPA TSCA Title VI compliant.

All raw materials used by Rogue Valley Door in the manufacture of our doors are either CARB Phase 2 exempt, (solid wood, glass) or products that are certified fully compliant with CARB 93120 Phase 2 requirements (MDF, Thin MDF, Particleboard).

Rogue Valley Door is regulated as a Fabricator under CARB ATCM 93120.07 and maintains records from our suppliers to validate these requirements.
